

THE 853PRO SERIES

CONCRETE. STONE. MASONRY. **UNSTOPPABLE**

853PRO SERIES

HIGH PERFORMANCE FOR THE PRO CUTTER

The rugged and reliable 853PRO and the 853 PRO PLUS are hydraulic saws designed for the serious cutter. With more horsepower and torque than gas-operated saws and the ability to cut to a depth of 24 inches (60 cm), they are ready to power through any concrete, stone, and masonry.

SAW SELECTION

In addition to cutting depth and power requirements, estimated frequency of use is important when selecting a saw. Use the chart below to determine the right saw for your cutting needs.
